

1976-2016

# WORLIFTS

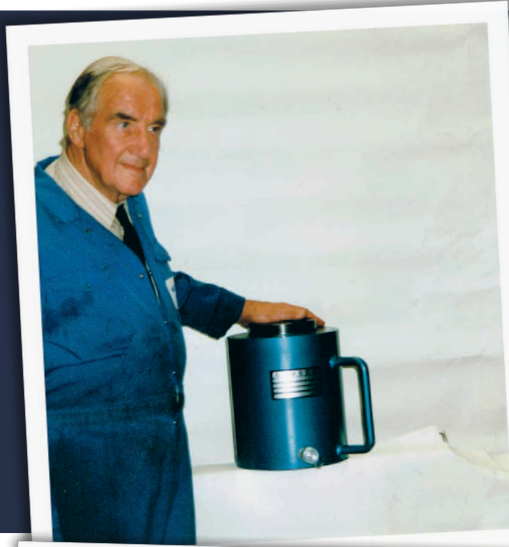

This October, Worlifts are celebrating 40 years of supplying lifting and associated equipment across all sectors of industry.

Worlifts is a family business that employs over 30 people and has three locations in Bromsgrove.

## Company History

1976 The company was founded by Mr Sam Worley just a few months before his 60th Birthday. Son John, managing director, worked alongside his father part time in the start-up years and moved to full time in 1979.

In these early years the company manufactured a range of hydraulic jacking equipment and slowly moved into distribution of hydraulic and mechanical lifting equipment and are now one of the country's leading distributors of this type of equipment.

2002 saw the launch of the first mobile inspection vehicle which was to be utilised to inspect, repair, test and certify customer's equipment on site in accordance with LOLER & POWER regulations. The company currently has six fully equipped inspection vehicles serving all of the UK.

The company now has a dedicated rail division; a bolting tool sales division and a hydraulic tool hire division.

*"Reaching our 40th year, and the way the company has grown makes me as proud as my father would have been. It has been an exciting journey and I have been lucky enough to share it with great directors, family and colleagues along the way"*

**John Worley**  
Managing Director
