Speedtec 200C - from £879

The Speedtec 200C is an advanced multi-process model that can be used for CV MIG, FCAW, Synergic MIG, CC Stick and DC Lift Tig. It features a large bright (adjustable) colour TFT User Interface that allows easy viewing of welding parameters and easy access to other features and menu's. The display uses simple and intuitive icons rather than traditional text making it clear and easy to understand while in use.
