

# Stanley Launch Two New Ergonomic, Cordless Tools - Available Now at Zygology

As part of our ongoing commitment to delivering the best in fastening technology to our customers, we're delighted to announce the arrival of the latest in ergonomic, cordless tools from Stanley, the NB08PT-18 and the SB25PT-05.

Designed to significantly improve productivity on your critical General Industrial and Transportation assembly applications, these new ergonomic, cordless Speed Fastening tools maximise placing capability whilst reducing installation cost.

- Each new tool enhances operator mobility, enabling them to move easily around applications without a compressed air line's constraints and hazards. Maximises output and reduces operator fatigue thanks to its balanced, ergonomic design.
- Prevents unscheduled downtime, combining the benefits of long-lasting DEWALT lithium-ion battery with industry-leading charging time. Tool-less, quick change, nose jaw and tail jaw systems further enhance productivity.

They're here, and they're available now at Zygology.

## **Stanley NB08PT-18 - Battery Powered Blind Rivet Nut Tool**

- Operates in both pull-to-force and pull-to-strokes modes, therefore offering exceptional adaptability and productivity benefits.
- Provides push-to-start functionality: the blind rivet nut is automatically loaded onto the tool by applying axial pressure to the drive screw (mandrel). This feature, combined with tool-less, quick change, nose equipment, further enhances productivity.
- Typically installs 900 (M6 steel) blind rivet nuts with a single charge, using a 2.0Ah battery.
- Quick-release nose equipment, quick slide battery installation, LED light to ensure a clear line of sight to the application, ergonomic soft-grip handle for operator comfort. The built-in touch screen allows the setting up of the stroke and force settings and the cycle counter and poka-yoke features to be easily entered and adjusted.

### Stanley SB25PT-05 - Battery Powered Speed Fastening Tool

- Improved accessibility to narrower spaces due to the longer barrel design.
- Delivers permanent and vibration-resistant assembly when used in conjunction with Avdel® Speed Fasteners.
- Installs 800 Steel 3/16" NeoSpeed fasteners with a single charge, using a 2.0Ah battery.
- Quick-release nose jaw and tail jaw system, quick slide battery installation, LED light to ensure a clear line of sight to the application, ergonomic soft-grip handle for operator comfort, low force single finger trigger system, balanced design.
- Can install all fasteners in the Speed Riveting portfolio from 2.4 – 4.8mm diameter.

### **NB08PT-18 and SB25PT-05 Typical General Industrial Applications:**

- Heating Ventilation and Air Conditioning (HVAC) applications
- Lighting applications
- Domestic appliances

### **Typical Transportation Applications:**

- Seating and passenger safety applications (NB08PT-18)
- Seating and interior trim applications (SB25PT-05)
- Trailer, Bus, and Coach ancillaries applications (both)

### **Outstanding Benefits - You're Going To Love Them!**

Discussing the new tools from Stanley, Zygology Sales Director, Richard Avery said, "Featuring DeWalt battery technology, the NB08PT-18 and SB25PT-05 are a very welcome addition to our range of cordless tools. They're the total package with outstanding benefits - they maximise placing capability, ensure optimum productivity, and reduce installation costs.

"Our customers are going to love them!"

### **Get In Touch With The Assembly Experts**

To request a sample or to discuss the new tools from Stanley and how they can increase your productivity whilst reducing installation costs, get in touch with our friendly team of experts on 0808 123 1221 or email [sales@zygology.com](mailto:sales@zygology.com).

Zygology – The fastening experts for over 40 years!

We're engineering product specialists that understand the practical applications of our fasteners and tools to provide you with bespoke solutions to your assembly requirements.

Our commitment to providing the best service and quality management is backed up by our ISO 9001 and UKAS Accreditations and we will always give the best advice we can - even if it means that we end up recommending a competing technology.

Combining friendly service and expert advice with competitive prices and excellent stock availability, our assembly solutions help you reduce your production costs and increase efficiency. Get in touch with our team today to discover how we can meet your assembly needs. You can check out our entire range of assembly products on our website by [clicking here](#).
