

Qonnect Arrives At Zygology

QONNECT

EUROPEAN RIVET ASSOCIATION

The brainchild of Jan Aarts, the original creator of MasterFix, the Qonnect Rivet Association is a partnership between various European & Asian-owned manufacturers of blind rivets, blind rivet nuts, & associated riveting tools, to provide product quality assurance & respond quickly to market trends & developments.

Already known in Europe for their product & service quality, speed, & reliability, Qonnect has arrived at Zygology & we are proud to be their UK distribution partner.

Pioneering & Competitive Offering

Describing what makes Qonnect stand out in the UK market, Jan & Qonnect Manager, Daan Schrijen said, "Technology is constantly in a state of flux. As such, it is down to us to liaise with our customers to ensure that the products we supply them in this globalised world are both technologically pioneering & competitive."

Quality Assured For Zygology Customers

As UK distribution partners for Qonnect, their range of rivets, rivet nuts & tools are already available at Zygology with next day delivery, in a range of pack sizes to suit all customer preferences.

It's the quality management from Qonnect that Zygology customers can be most excited about over the forthcoming year, Jan & Daan state, "Quality assurance is a big priority for us. The quality of our services, the satisfaction of our customers, & the new value offered to partners are important components of our competitiveness.

"We therefore attach great significance to quality management throughout our operation. It is only by offering outstanding quality that we can satisfy high expectations & earn the trust of our customers. As such, we follow PPAP procedures in our forward quality planning. Our quality management subjects all new & existing products to comprehensive quality & application testing. By directly integrating our quality management system with our global production standards, we can guarantee a consistent level of quality. Our quality management system is certified in accordance with ISO/TS 16949 & DIN EN ISO 14001."

“Together We Can Grow In This UK Market”

When asked about the new partnership with Zygology, Jan & Daan said, “Qconnect is looking forward to this new & close collaboration with Zygology. Together we can grow in this UK market by exchanging experience, knowledge & know-how.

“Where Qconnect will get all the advantages of a local partner, as in resources, network & supply chain. And Zygology customers can rely on Qconnect for good stock levels, fast delivery & access to Asian productions.”

Zygology Sales Director Richard Avery added, “This is a very exciting time for Zygology & our customers & we’re delighted to be in partnership with Qconnect.”

“As the UK partner & distributor for Qconnect including the Q range of fasteners, we are well set up to supply the widest range of Qconnect rivets, rivet nuts & installation tools to our OEM & distribution customers with next day delivery.”
