

## Unitemp to Showcase ESPEC's Advanced Environmental Stress Chambers at Battery Tech Expo - Silverstone 25th April 2024

---

The AR Series chambers are renowned for their high performance, offering a wide temperature and humidity

control range essential for rigorous testing requirements. Equipped with ESPEC's latest control instrumentation and built-in Ethernet for remote monitoring, the AR Series ensures precise and efficient testing protocols.

## Visit Stand B30 Hall 2

### Key Features of the ESPEC AR Series Rapid Temperature Change Rate Test Chamber

---

- Fast temperature cycling with rates up to 25K/min
- Wide temperature and humidity control range (-70°C to +200°C, 10% to 98% RH)
- Frost-free operation with energy-saving features
- Convenient cable ports and viewing window for easy access and monitoring
- Intuitive user interface with remote monitoring capabilities
